

QUANTEC MAGNETOTELLURIC SURVEY OVER PART OF TREATY CREEK PROPERTY

PLAN MAP OF TREATY CREEK PROPERTY

**KSM PROPERTY
SEABRIDGE GOLD LTD.**

QUOTE BY KEVIN KILLIN, GEOPHYSICIST

Zone "A" is a near surface conductive anomaly that is present on at least 3 stations at varying depths. The zone has the potential to be a very large body based on the information provided, should it extend to the southwest toward the Seabridge KSM property."

After Fig. 2-7 and 2-8, Kevin Killin report, April 17, 2014, GEOPHYSICAL SUMMARY REPORT TUNNEL TRANSECT SURVEY

TEUTON RESOURCES CORP.
